

Virtual Caregiving Service

Virtual Caregiving helps seniors stay safe even when their caregivers are not there in-person. Seniors connect with Remote Care Coordinators, nurses, physicians, pharmacists, and family via smartphone or tablet.

*"Keeping you home,
Keeping you safe"*

HOW IT WORKS

- You or your aging loved one receives a dedicated Remote Care Coordinator.
- Together, with your caregiver or family member, we create a customized Care Plan.
- You receive proactive check-ins and reminders via smartphone or tablet.
- We provide daily wellness surveys as needed.
- Our Remote Care Coordinators provide companionship to combat loneliness.
- We coordinate obtaining medication, food, transport, and other household needs if needed.
- We emphasize engagement and offer remote social activities multiple times a week.

MEDICATION REMINDERS & RESOURCES

Need medication reminders when caregivers and family are not present? We can help! Our system can send reminders, or we can set up a call with your Remote Care Coordinator.

GET ANSWERS

When you need to speak with someone who knows your medical history, or when you just need to talk, our Remote Care Coordinators are there for you.

COMPANIONSHIP

When your caregivers or family members aren't with you, we can be! Our Remote Care Coordinators are more than a team member, they become friends who care.

YOUR HEALTH CARE TEAM

We can work with your family, other caregivers, and your health care team to make sure you are safe, healthy, and getting the best care possible.
